Product code 13397

Waterproof silicone-coated LED strip suitable for damp environments.

This product is sold in 5-meter rolls.

The strip can be cut every 3 LEDs at intervals of 3 cm. It can be extended by soldering.

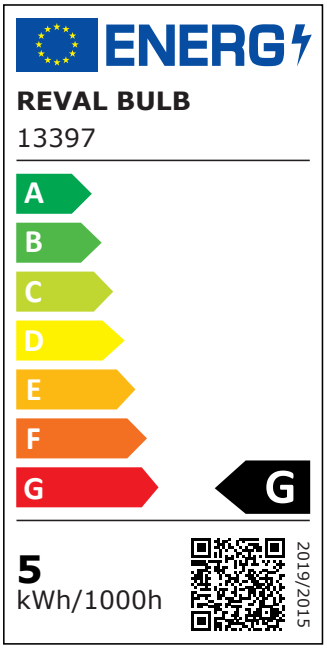

A maximum of 7-8 meters of the strip can be connected to one power supply unit.

Installation is made easy with 3M double-sided tape on the back of the LED strip. For best durability and heat dissipation, we recommend installing it with an aluminum profile.

A power supply unit is required for operation, which can also be found in the LED House product range.
