Low UGR recessed LED luminaire. Ideal also for more humid spaces!

This luminaire is suitable for example in shopping centers, bedrooms, conference rooms, classrooms, living rooms, kitchens, bathrooms, and many other spaces.

Protection class IP54 means that the luminaire is protected against normal dust and splashes from any direction - this feature makes DL96 ideal for illuminating bathrooms and other more humid spaces.

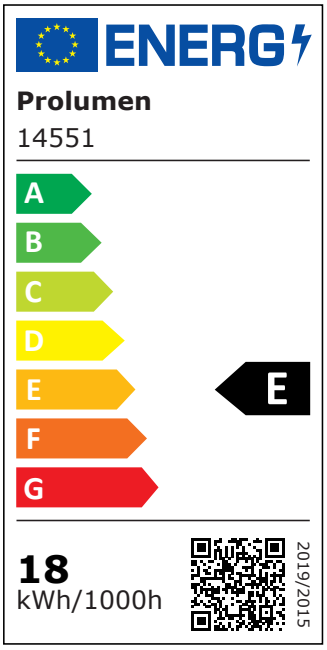

You can find this luminaire model in the LED House product range with both warm white (3000K) and daylight white (4000K) light. In addition, a dimmable version (TRIAC) is also available, allowing the user to adjust the brightness of the light beam as desired.

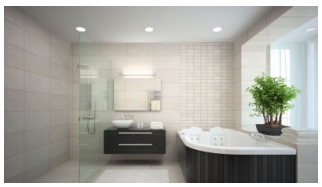

With proper use, the luminaire is energy-efficient, environmentally friendly, and has a very long lifespan (50,000h).
