

Kit Sigenergy Inverter 10kW Hybrid + HV Batteries 8,18kWh LiFePO4

Product code 17645

The first in the world where AI manages your energy storage using data from the Nordpool market. SigenStor charges the batteries at the best and lowest prices and sells to the grid at the highest prices of the day, all while considering the consumer's own usage. Enjoy a worry-free life!

This set includes:

- Sigenergy SigenStor EC Inverter.
- New generation battery (expandable up to 48kWh if needed)
- Sigenergy Sigen CommMod WIFI receiver.
- Sigenergy Sigen Sensor TP-CT120-DH smart meter.
- Floor frame.

We help with installation and setup.
