

## Dimmer SKYDANCE L1(WZ) 230V IP20 0-10V / PUSH / RF

Product code 17929

The L1(WZ) dimmer allows you to control the lighting by adjusting its brightness and turning it on/off. This can be done through the Tuya app on your smartphone, or it can be controlled with the Philips HUE system or voice commands (Amazon Alexa, Google Assistant, Tmall Genie, Xiaodu). The dimmer supports two different outputs (0-10V or 1-10V), which can be selected using a simple switch. It allows smooth brightness adjustment without flickering.

Warranty 5 years
