

Motion sensor ER-C gray 5-24V IP20

Product code 18134

This motion sensor features a compact, concealed aluminum housing, making it suitable for various lighting solutions. The device operates on low-voltage power and provides a stable signal output. It detects movement within a specific range and angle, automatically turning on the light when motion is detected and switching it off when the area is vacant. Compatible with different lighting controllers, including stair lighting and dimming systems, it offers an intelligent and energy-efficient solution.

Warranty	5 years
Supply voltage	5-24V
Protection class	IP20
Length	18.0mm
Diameter	26.0mm
Installation opening diameter	20mm
Casing colour	gray
Work environment	indoor use
Certificates	CE
