

Contactor LUZ NEGRA Bending Machine

Product code 18180

This machine is specialized in bending PMMA (polymethyl methacrylate) and other materials used in the production of LED lighting profiles and diffusers. The device enables precise and controlled bending to create components suitable for various lighting solutions.

Thanks to its versatility, the machine is suitable for shaping both covers and other parts of LED profiles, offering flexibility in the manufacturing process. It is an ideal solution for professional installation and production, where materials need to be bent according to the shape and technical requirements of different lighting profiles.

Brand	LUZ NEGRA
Length	2000.0mm
Casing material	plastic
Polishing	matt
