

Motion sensor SKYDANCE EH-R(WT) white 230V IP20 0-10V / RF

Product code 18232

A Ceiling-Mounted PIR Motion Sensor Switch is designed for efficient lighting control in indoor spaces such as offices, meeting rooms, and classrooms. This advanced sensor features a built-in daylight sensor for real-time detection of human motion and ambient light levels. It outputs a 0/1-10V signal, compatible with dimmable drivers, and operates with high voltage AC input, ensuring reliable performance. Lighting can be controlled effortlessly via the Tuya Smart APP, allowing adjustments to sensor sensitivity, hold time, stand-by time, and light sensing thresholds. Manual adjustments can also be made using three convenient knobs. The device functions as an RF remote, emitting a 2.4G signal for compatibility with RF LED controllers or dimmable drivers. This smart, versatile solution enhances indoor lighting experiences.

|-------------------------------|--------------------------|
| Warranty | 5 years |
| Brand | SKYDANCE |
| Supply voltage | 230V |
| Dimmable | 0-10V / RF |
| Protection class | IP20 |
| Height | 51.0mm |
| Diameter | 95.0mm |
| Installation opening diameter | 86mm |
| Casing colour | white |
| Work environment | indoor use |
| Certificates | CE |
