Product code 19538

Ceiling panel is a stylish and functional lighting solution, which fits perfectly into various indoor spaces, including homes, offices, and public areas.

The luminaire is made of high-quality materials, ensuring durability and long-term use

Replaceable LED module if necessary. This allows users to easily and conveniently replace the LED light source without replacing the entire luminaire or light bulb. Replaceable LED modules are more energy-efficient, have a longer lifespan, and offer different light temperatures and brightness levels according to the user's needs.

This ceiling panel is suitable for indoor use only, with IP20 protection class.

Improve the quality of light in your everyday life and choose a top-notch lighting solution from the LED house product range!
