

Recessed light Trio Lighting Pamir black round 5,5W 345lm 36° IP20 830

Product code 19548

The secret of TRIO recessed luminaires is: timeless.flexible.design-orientated. With the right recessed luminaires, you can set stylish accents and create an atmospheric ambience. The recessed luminaires in the PAMIR range are ideal for targeted and effective lighting of your living spaces. The recessed luminaire in a classic reflector design can be swivelled and emits directional light with a beam angle of 36. The recessed luminaire can also be dimmed externally so that the brightness can be individually selected. Thanks to IP23 protection, the PAMIR recessed luminaire can be used in kitchens or covered entrance areas without any problems. The round PAMIR recessed light has a diameter of 85mm and requires a ceiling cut-out of 72mm and an installation depth of at least 68mm. No additional transformer is required for the installation and linking of several recessed luminaires. The matt black colour scheme rounds off any straightforward and modern furnishing style. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

Correlated colour temperature	warm white 3000K
Luminous flux	345lumens
Brand	Trio Lighting
Output	5,5W
Lens angle	36°
CRI	80
Protection class	IP20
Height	54.0mm
Diameter	85.0mm
Casing colour	black
Casing material	metal
Shape	round
Work environment	indoor use
