

Recessed light Trio Lighting Zagros nickel round 5,5W 345lm 36° IP20 830

Product code 19559

The secret of TRIO recessed luminaires is: timeless.flexible.design-orientated. With the right recessed luminaires, stylish accents can be set and an atmospheric ambience created. ZAGROS recessed luminaires provide directional, accentuated and pleasantly natural light. Thanks to IP65 protection, the lights are protected against water jets and are therefore particularly suitable for wet rooms and outdoor areas. The recessed luminaires have a classic reflector look and are externally dimmable so that the brightness can be individually adjusted. The round ZAGROS recessed spotlight has a diameter of 85mm and requires a ceiling cut-out of 72mm and an installation depth of at least 68mm. No additional transformer is required for the installation and linking of several recessed lights. In matt nickel, the ZAGROS recessed lights perfectly round off a modern and sleek appearance. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

Correlated colour temperature	warm white 3000K
Luminous flux	345lumens
Brand	Trio Lighting
Output	5,5W
Lens angle	36°
CRI	80
Protection class	IP20
Height	54.0mm
Diameter	85.0mm
Casing colour	nickel
Shape	round
Work environment	indoor use
