

Dimmer SKYDANCE SS-A (2 Switch → RF Converter) 230V IP20 RF

Product code 19978

The SS-A is a smart AC power supply (100–240 VAC) with a 2-switch input RF signal converter, allowing traditional switches to control smart LED lighting systems. This device converts switch signals into a 2.4 GHz radio frequency control signal, which can be used to control one or two zones via RF controllers or dimmers.

Warranty 5 years **Brand SKYDANCE** Supply voltage 230V Dimmable RF Rated current 10mA IP20 Protection class Length 52.0mm Width 52.0mm Height 26.0mm Weight 62g Work environment indoor use

Operation temperature -30°C~55°C°C Certificates CE, RoHS
