

Socket Trio Lighting Garden 4 anthracite IP54

Product code 19983

No more extension cables. The POLLER socket column now provides sufficient power connections in the garden. The pillar offers four sockets and therefore provides plenty of flexibility when organising the garden. Thanks to its IP44 protection rating, the 40 x 10 cm pillar is protected against splashing water and is therefore suitable for outdoor use. Thanks to the anthracite colour scheme, the column can be integrated inconspicuously.
