

Mirror light Trio Lighting Mattimo H2O silver 8,6W 880lm IP44 830

Product code 20405

The simple MATTIMO wall light blends beautifully into the desired area of application. Thanks to its IP44 protection rating, the light is protected against splashing water and can be used in damp rooms such as the bathroom without any problems. The elongated design is ideal next to or above the mirror in the wash area and provides stylish accents. In addition, the luminaire emits a soft and harmonious light over a width of 80.5 cm, which is evenly distributed in the application area and provides sufficient light. The light can be switched on and off as usual using the wall switch or via an integrated switch on the light. The combination of chrome and white plastic blends harmoniously into the overall picture. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
