Product code 20782

The ENRICO wall light is the ideal choice for any modern bathroom. Its elegant, elongated design ensures even and pleasant lighting. In addition, two spotlights are attached to both sides of the main light to provide targeted lighting accents and optimum illumination. With an IP44 protection rating, the luminaire is optimally protected against splashing water and is therefore perfect for damp environments. An integrated switch makes it possible to control the main light source and the side spots separately, allowing you to flexibly adjust the lighting to your needs and preferences. The light colour can also be individually adjusted and the light has a practical memory function. The chrome finish emphasises the purity and precision of the design and adds a touch of luxury and durability to the bathroom. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Correlated colour temperature 3CCT 2300K, 3000K, 4000K

Luminous flux 620lumens

Brand [Trio Lighting](#)

Supply voltage 230V

Output 6,5W

Socket GU10

Protection class IP44

Length 60.0mm

Width 600.0mm

Height 180.0mm

Weight 1400g

Package weight 1500g

Casing colour chrome

Casing material aluminium

Work environment indoor use
