

Bollard light Trio Lighting Malawi anthracite 5W 700lm IP65 2300K, 3000K, 4000K 3CCT

Product code 21095

The MALAWI outdoor light combines modern technology with practical functionality and is the ideal choice for your outdoor lighting. Equipped with a motion and twilight sensor, the light provides automatic and needs-based lighting. It offers flexible operating options: the light can be used either exclusively with solar energy, only with mains voltage or in hybrid operation. If the battery voltage is insufficient, it automatically switches to mains operation, while the battery is charged exclusively via the solar panel. The design of the MALAWI enables an individually adjustable light surface that can be tilted as required to direct the light in a targeted manner. At dusk or in the dark, the MALAWI lights up continuously with a gentle orientation light of around 10% brightness. As soon as the motion sensor registers activity in the immediate vicinity, the brightness automatically increases to 100%. With an IP65 protection rating, the luminaire is optimally protected against dust and water jets from any angle, making it ideal for outdoor use. The robust housing of the MALAWI is made of high-quality die-cast aluminium, which not only ensures a long service life, but also offers a modern and elegant look thanks to its anthracite-coloured surface. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Correlated colour temperature	3CCT 2300K, 3000K, 4000K
Luminous flux	700lumens
Warranty	5 years
Brand	Trio Lighting
Output	5W
Protection class	IP65
Lifespan	50000h
Length	200.0mm
Width	153.0mm
Height	600.0mm
Weight	3 kg
Package weight	3.4 kg
Casing colour	anthracite
Casing material	diecast aluminium
No. of switches	25000times
Work environment	outdoor use
