incl. 1x SMD, 3W · 1x 220lm, 3000K

incl. 2x SMD, 1,5W · 2x 150lm, 3000K

Timeless and minimalist. The ELEMENT wall light has a simple and elegant design. The light measures 20 x 16 cm and has two light sources that can be operated separately using integrated switches. The ELEMENT reading light can be individually aligned and is therefore ideal as a wall light next to the bed. The wall light also has a shelf and a USB port with charging function so that electronic devices can be easily stored and charged at the same time. Furthermore, thanks to the FLEXconnect feature, the light is suitable for both fixed connection and use with a plug lead. The matt white colour scheme leaves plenty of scope for combining with existing colour concepts and rounds off any straightforward furnishing style. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
