

Wall light Trio Lighting Levisto silver E14 IP20

Product code 21119

The LEVISTO plug-in spotlight offers full flexibility and functionality and impresses with a simple design that can be integrated comfortably into your rooms. The spotlight in matt nickel combined with the white alabaster-coloured glass provides uniform illumination. The luminaire arm is flexible and can therefore be individually aligned and the integrated switch dimmer is particularly noteworthy. Three different brightness levels can be selected using the on/off switch. By graduating the light intensity from 100% to 50% and 25%, the luminaire can cater for different lighting conditions. Ideally, the light should be placed next to the bed in the bedroom, as the flexible arm makes it ideal for use as a reading light, while the integrated light source emits a pleasant warm white light of 3000 Kelvin. Depending on its position, the plug-in spotlight reaches a maximum height of 40 cm and a maximum projection of 22 cm.

Warranty	5 years
Brand	Trio Lighting
Socket	E14
Protection class	IP20
Length	74.0mm
Height	400.0mm
Weight	400 g
Package weight	700 g
Casing colour	silver
Casing material	metal + glass
Work environment	indoor use
