

Wall light Trio Lighting Solitare white 8W 700lm RGB + 3000K RGBW warm

Product code 21963

With its modern and unusual design, the SOLITAIRE luminaire creates a striking eye-catcher in any living area. In addition to an RGBW colour changer, the remote control can be used not only to select a wide range of colours, but also to continuously adjust the brightness. The body of the basic model consists of three modules that can be arranged in different ways. The size of the luminaire is determined by the arrangement of the modules, with each module measuring approx. 34x39 cm and 6 cm high. In addition, the basic model can be extended by two further modules, so that the SOLITAIRE can be made up of a maximum of five modules. Give free rein to your creativity, whether it's setting the mood for the next party or providing relaxing light for resting. Thanks to the neutral white colour scheme, the various colour settings can be shown to their best advantage. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Correlated colour temperature	RGBW warm RGB + 3000K
Luminous flux	700lumens
