

Recessed light Karizma Luce Dea Devi M black 12W 950lm 36° IP20 930

Product code 21999

Karizma Luce Dea Devi M is an adjustable recessed lighting module within the Dea Athena modular system, designed for flexible accent lighting in refined architectural environments. Its turnable and tiltable light source allows for precise direction, while the form remains discreetly integrated into the ceiling. Ideal for hospitality interiors, galleries, restaurants, retail spaces, and residential applications, it delivers focused light with a subtle architectural presence.

It provides up to 960lm with 24° or 36° beam angles, and fits into an M-size trimless frame or trim from the Dea Athena family. Available in black or white housing, with reflector finishes in white, black glossy, black matt, gold, copper, chrome, or silver. Choose between single CCT or dim-to-warm, and combine with the proper driver—on/off, phase dim, DALI, or Casambi. Dea Devi M is a versatile lighting tool, blending movement and control into one elegant recessed solution.
