

Ceiling light–fan Trio Lighting Boras white 22W 2500lm CRI80 IP20 2700K-6500K warm + cold white

Product code 22288

The BORAS ceiling light is anything but ordinary. The eye-catching, beautifully shaped illuminated surface makes it a real eye-catcher on the ceiling and gives the room a special dynamic. At the same time, the unusual look conceals a sophisticated interplay of light and air that perfectly combines comfort and design. As soon as the fan is activated, the blades gently extend and ensure pleasant air circulation. The light and fan can be controlled separately - conveniently by remote control. The brightness and light colour can be individually adjusted so that the lighting mood can be adapted to your needs at any time. With three speed levels as well as summer and winter operation, BORAS creates a balanced room climate at any time of year. The night light and timer function round off the overall package and make the light the ideal choice for living rooms and bedrooms where design is just as important as function. The look is rounded off by matt white metal in combination with white plastic, giving the fan a modern, harmonious appearance. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Correlated colour temperature	warm - cold white 2700K - 6500K
Luminous flux	2500lumens
Warranty	5 years
Brand	Trio Lighting
Output	22W
CRI	80
Protection class	IP20
Lifespan	30000h
Height	280.0mm
Diameter	600.0mm
Weight	6.3 kg
Package weight	7 kg
Casing colour	white
Casing material	plastic
No. of switches	15000times
Work environment	indoor use
