

Ceiling light–fan Trio Lighting Oslo black 20W IP44 2700K-6500K

Product code 22366

The OSLO fan brings a breath of fresh air and atmospheric light into perfect balance. It combines pleasant air circulation with modern lighting, ensuring a comfortable room climate all year round. Thanks to the practical hanging bracket, the ceiling fan is quick and easy to install - without any major effort. With its IP44 protection rating, OSLO is not only ideal for living rooms, but also ideal for damp rooms such as bathrooms or for outdoor use, for example on a covered patio. On hot summer days, it provides a pleasantly cool breeze, while in the evening hours it provides just the right amount of light. The light and fan can be switched separately and conveniently controlled by remote control. Whether brightness, light colour or air flow - everything is individually adjustable. The fan has six speed settings, a practical timer function and a discreet night light that creates a relaxing atmosphere. The modern design is rounded off by the elegant combination of black plastic and high-quality black aluminium, which makes the fan a stylish eye-catcher on any ceiling. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Warranty	5 years
