That certain something with the FERNANDEZ rechargeable luminaire. The battery operation of the table lamp allows flexible placement without any cables wherever a cosy lighting atmosphere is needed. The lamp is charged via a discreetly designed charging station. The mobile table lamp, which looks great on a garden table or on a dresser in your living room, has a 4-fold touch function that regulates the light in 3 brightness levels. In addition, infinitely variable adjustment of the light colour is possible. As the FERNANDEZ has IP44 protection, it is protected against splashing water and can therefore also be used outdoors. The reduced design in classic form makes the table lamp in white matt an adaptable decorative element. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
