

Facade luminaire Trio Lighting Cobre black 5V 8W 850lm IP44 4000K pure white

Product code 22782

The COBRE outdoor wall light impresses with its minimalist, simple design and blends seamlessly into any outdoor environment. Thanks to the innovative hybrid solar technology, the integrated battery can be charged both via the solar panel and via a USB-C cable. The light is equipped with a motion sensor and a twilight sensor, which combine to provide needs-based lighting. Switchable in two brightness levels on the light itself, ATICO also offers a permanent orientation light that automatically lights up at around 10% brightness at dusk or in the dark and switches up to 100% when movement is detected. Both the light duration and the sensitivity of the sensor can be individually adjusted. With its IP44 classification, the light is reliably protected against splash water and is therefore ideal for outdoor or damp areas. The black matt plastic gives the light a modern and unobtrusive look. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Correlated colour temperature	pure white 4000K
Luminous flux	850lumens
Luminaire’s efficiency	106lm/W
Warranty	5 years
Brand	Trio Lighting
Supply voltage	5V
Output	8W
Maximum output	8W
Protection class	IP44
Lifespan	25000h
Width	160.0mm
Height	105.0mm
Weight	400 g
Package weight	500 g
Casing colour	black
Casing material	plastic
No. of switches	12500times
Work environment	outdoor use
Manufacturer’s homepage	products.trio-lighting.com/R24716132/
Energy class
