

Ceiling lamp Trio Lighting Drake nickel 50W 5850lm IP20 switch dimmer 2700K-6500K

Product code 23756

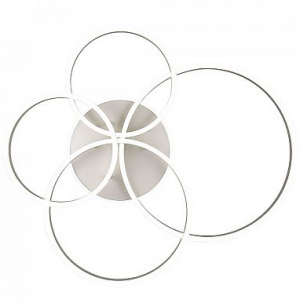

The DRAKE ceiling light is far more than just a light source - it is an architectural highlight. Its striking structure of four differently sized, merging light circles creates a lively, organic shape that immediately catches the eye. Despite its expressiveness, the luminaire does not appear overloaded, but balanced and stylish - a real design object for modern rooms that is both eye-catching and illuminating. Technically, it impresses with a wide range of functions: The light can be conveniently controlled using the remote control. The brightness is infinitely dimmable, as is the light colour - from warm white to cool white. The memory function remembers the last selected settings, while the integrated switch dimmer also enables control via the wall switch. Additional cosiness is provided by the built-in night light, which provides discreet orientation light without completely illuminating the room. Manufactured from high-quality metal in matt nickel, DRAKE has an understated sophistication. The discreet surface structure reflects the light elegantly and emphasises the high-quality workmanship. The metal look ideally complements the modern design and ensures that DRAKE not only impresses with its shape, but also with its choice of materials - clear, high-quality, consistently modern. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Luminous flux	5850lumens
Luminaire’s efficiency	117lm/W
Warranty	5 years
Brand	Trio Lighting
Dimmable	switch dimmer
Output	50W
Maximum output	50W
Protection class	IP20
Length	700.0mm
Width	800.0mm
Height	170.0mm
Casing colour	nickel
Casing material	metal
Work environment	indoor use
