Wall light Nova Luce Minim white 230V G9 IP20

Product code 23902

The Minim wall light combines a sleek white sandy steel finish with opal glass for a modern, minimalist aesthetic. Designed for indoor environments, this surface-mounted fixture uses a single G9 bulb to provide focused illumination. Its compact dimensions and clean design make it ideal for bedrooms, hallways, or living spaces seeking subtle decorative lighting. The durable steel and glass construction ensures lasting quality, while the light's simplicity complements a variety of interior styles. This non-dimmable fixture offers easy installation and reliable performance with standard AC power input.
