

Motion detector HYTRONIK RF HC018V 0-10V (LH3913)

Product code: LH3913
 brand: [HYTRONIK](#)
 input voltage: 230V
 casing material: plastic
 working environment: indoor use
 certifications: CE
[manufacturers homepage](#)
 warranty: 5 years

price: €35,83+VAT
 price: €43,00 including VAT
 Discount price: €29,17 + VAT
 1-10V output control to achieve tri-level dimming (corridor function), with manual override access

Tri-level Control (Corridor Function)

Hytronik builds this function inside the motion sensor to achieve tri-level control, for some areas which require a light change notice before switch-off. The sensor offers 3 levels of light: 100%-dimmed light=off, and 2 periods of selectable waiting time: motion hold-time and standby period. Selectable daylight threshold and freedom of detection areas.

With sufficient natural light, the light does not switch on when presence is detected.
 With insufficient natural light, the sensor switches on the light automatically when presence is detected.
 After hold-time, the light dims to standby level or switch off if the standby period is pre-set to 0s.
 Light switches off automatically after the standby period elapses.
