# Wall light Maytoni Basfor 2 x E14 gold E14 IP20

## Product code 20824

Brand Maytoni
Socket E14
Protection class IP20
Height 125.0mm
Width 255.0mm
Length 150.0mm
Weight 1.09 kg
Package weight 1.52 kg
Casing colour gold
Work environment indoor use
Warranty 2 years

The Basfor collection by Maytoni embodies sophistication and refinement with a contemporary twist. At the heart of the design are exquisite diamond-cut crystals that create a captivating play of light, lending the luminaires a luxurious appearance. The elegant frame is made from premium-grade metal with a high-quality galvanic finish. An additional year of warranty is provided, ensuring peace of mind with every purchase.

# Wall light Maytoni Basic form black / white E14

## Product code 22460

Brand Maytoni
Socket E14
Length 180.0mm
Diameter 150.0mm

Work environment outdoor use
Warranty 2 years

The Basic Form collection is the epitome of minimalism in modern lighting design. The clean, geometric sphere seamlessly fits both contemporary and neoclassical interiors. The universal frame is available in two timeless colors - black and gold - allowing these luminaires to integrate into a wide range of design schemes, including layered and complex styles. Basic Form is the perfect choice for those who appreciate simplicity and versatility in lighting design, creating an atmosphere of comfort and style while complementing any interior with its minimalist elegance.

Calipso is a designer lighting series with a graphic texture. The collection is available in three colors: classic black, white, and brass. Calipso luminaires are highly versatile — you can choose between surface-mounted, recessed, wall-mounted, or pendant versions. The recessed light source provides eye-friendly illumination. The swivel mechanism in certain models lets you add refined lighting accents to your interior.

The series offers a variety of models in different sizes and applications, suitable for both general and task lighting. Functional design allows for adjustable shade positioning on both the floor lamp and table lamp. The height of the pendants can be customized via the adjustable cables. Chandeliers feature a central rod composed of three sections, allowing height adjustments to suit any space. Ceiling-mounted models further expand the collection's versatility, making it suitable for rooms with varying dimensions and ceiling heights.

Warranty 3 years

The Light Stick collection features minimalist luminaires that fill spaces with soft, reflected light. The slender metal frames with galvanic finish are offered in two colors: satin brass and textured black. An acrylic diffuser covers the LED light source, providing glare-free, comfortable illumination. The wall-mounted fixtures feature simple, understated shapes that blend effortlessly into any interior. Pendant compositions can serve as supplemental or secondary lighting. The integrated LED source delivers warm light at 3000K. The suspension height of the pendants is adjustable, with a maximum cord length of 3.5 meters, making them ideal for rooms with high ceilings.

Warranty 2 years

The Mollis collection is more than a design - it's a philosophy of minimalism reflected in the straight lines and strict forms of its luminaires. The soft contours of the metal frame combined with the warm glow of acrylic lighting gently soften the sharpness of the geometry, emphasizing simplicity and a sense of freedom. The collection includes table lamps, wall sconces, floor lamps, and pendants. Its unified, coherent design makes Mollis an ideal complement to high-tech, minimalist, and contemporary interiors.

Crystals define the luxurious appearance of the Palace collection. Each model is further adorned with intricate floral inlays of exceptional craftsmanship. This extensive series includes a wide variety of ceiling and pendant chandeliers, as well as wall lamps with both concealed light sources behind crystal facets and open candle-style bulbs. An additional one-year warranty is provided for all models.

# Wall light Maytoni Puntes chrome 60W E14 IP20

Massive crystals serve as the centerpiece of the Puntes collection's design. The series includes pendant chandeliers of various diameters, as well as wall, table, and floor lamps. Each model is available in two timeless finishes: gold and chrome. The height of the chandeliers can be adjusted via the chain length. The cohesive color scheme and repeating decorative elements allow for easy combination of different models, enabling creative lighting arrangements and accent lighting across various zones within the interior.

LED wall light for using above the mirror. The mirror light allows you to change the light temperature with a simple press of a button according to your needs. You can choose between warm white (3000K), daylight (4000K), and cool white (5700K) light. We also recommend this LED luminaire above the dressing table. A light temperature of 5700K is ideal for beauty procedures and is also preferred by professional cosmetologists! Illuminate your world with LED House professionals - [check out our project portfolio here!](#)

350° rotatable LED wall light, a stylish
addition to your home! The light beam
falls in two directions, and the
luminaire can be easily rotated 350°
horizontally and 28° vertically. We
especially recommend this stylish
luminaire for the bedroom next to the
bed, but the WL101 is also ideal for
use as mood lighting in corridors or
offices. IP20 protection class allows
the luminaire to be used only indoors.
With proper use, the luminaire is
energy-efficient, environmentally
friendly, and has a very long lifespan
(50,000 hours). Illuminate your world
with LED House professionals - check
out our project portfolio here!

Adjustable beam LED wall light for indoor use. Ideal for corridors, living rooms, and bedrooms. The warm white light temperature (3000K) creates a cozy atmosphere and is therefore suitable for various living and working spaces. The light beam can be adjusted within a 180° radius - 90° to the left and 90° to the right. IP20 protection class allows the luminaire to be used indoors. The wall light housing is made of aluminum, with a minimalist design and a matte white colour. Improve the quality of light in your everyday life and choose a top-notch lighting solution from the LED house product range!

The BRAD wall light is the right choice for a cosy home! The modern light impresses with its combination of real wood and metal, creating a cosy atmosphere. The light cuts a particularly fine figure in the living room, bedroom or hallway, where the spotlight is shown to its best advantage as a central element. The wall light has a height and width of 11 cm and a length of 37 cm. With the great combination of wood and metal in antique nickel, the light fits perfectly into modern furnishing concepts and is also a real highlight for vintage fans. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The CELESTE wall light combines stylish elegance with high functionality. Its unique metal and glass design creates special accents in any room. The futuristically designed glass shade fascinates with its matt surface, which creates breathtaking plays of light and a warm, inviting atmosphere. Whether on the ceiling in the hallway or as a decorative highlight in the living room - CELESTE always provides the perfect lighting. Thanks to the integrated SWITCH dimmer, you can control the brightness in three levels directly via the conventional light switch. This gives you full control over the light intensity and allows you to adjust the light to suit your mood or the time of day. The stylish combination of metal in coffee and white glass blends seamlessly into both modern and classic furnishing styles and allows the light to shine in any setting. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The CONCHITA wall light combines innovative design with maximum functionality. Its clear, elegant shape creates a discreet, modern ambience and can be used in a variety of ways. Whether as an atmospheric light source in the bedroom or as a flexible highlight in the living room - CONCHITA adapts effortlessly to your needs. The up-and-down lighting creates a pleasant, indirect light upwards and downwards, creating a cosy atmosphere. Brightness and light colours can be conveniently controlled using the practical remote control or the 4-way touch on the luminaire itself. The integrated dimmer offers infinitely variable adjustment options - for exactly the light you want. CONCHITA is particularly flexible thanks to its rechargeable battery operation with USB-C connection for charging. Thanks to the magnetic attachment, the luminaire can be easily removed and reattached elsewhere - without any time-consuming assembly. So you always have the perfect light source to hand. The CONCHITA wall light impresses with its robust metal and aluminium housing in elegant matt black. This combination not only ensures a high-quality look, but also a pleasant feel. The discreet colour design can be effortlessly integrated into a wide variety of living styles and sets unobtrusive accents in your room. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Timeless and minimalist. The ELEMENT wall light has a simple and elegant design. The light measures 20 x 16 cm and has two light sources that can be operated separately using integrated switches. The ELEMENT reading light can be individually aligned and is therefore ideal as a wall light next to the bed. The wall light also has a shelf and a USB port with charging function so that electronic devices can be easily stored and charged at the same time. Furthermore, thanks to the FLEXconnect feature, the light is suitable for both fixed connection and use with a plug lead. The simple matt black colour scheme underlines the modern character of the luminaire and can be integrated into numerous colour concepts. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

FAIRFIELD wall light - for a cosy flair around the bed! Its simple design and indirect light contribute to relaxation in the bedroom and provide cosy brightness, perfect for relaxing hours of reading in the evening. With its integrated inductive charging station, the light enables easy charging of compatible smartphones. Alternatively, it offers a USB and USB-C connection with charging option. Thanks to the FLEXconnect feature, the wall light is extremely versatile - it can be operated both via a switch and without a cable via the fixed connection. In this case, operation is via a conventional wall switch. The integrated SWITCH dimmer makes it possible to adjust the FAIRFIELD to three brightness levels (100 %, 50 % and 25 %) and adapt it to your needs. The simple design in matt black ensures that the light blends into any interior with ease. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Luminaires with textile shades create an atmospheric ambience and cosiness. The light is gently emitted into the surroundings via the fabric shade, creating a cosy atmosphere. The wall lamp HOTEL is suitable as an alternative to the classic bedside lamp. Because the practical reading arm can be individually aligned by the flex arm. Two switches on the side of the lamp allow the main shade and the reading arm to be switched separately. The simple shape of the lamp conveys a pleasant living ambience and is considered a classic in decorative lighting. Due to the tasteful combination of the grey shade with matt nickel, the lamp creates a modern environment. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

HOTEL wall light with reading arm for convenient and flexible use. Both light sources can be switched separately and can fulfil different requirements. The flexible reading arm allows the light to be directed in a targeted manner and can be positioned according to your needs. Ideally, the HOTEL should be placed in the bedroom next to the bed, as the combination of the pleasant light from the fabric shade and the flexible reading arm makes the luminaire ideal as a reading and bedside lamp. The light can be attached to the wall in any position and operated using the cord switch or connected directly to the power supply and switched on and off using the integrated switches on the light. In this case, the cable can be removed from the luminaire. The reading arm is fitted with an OSRAM LED light source and provides sufficient light for reading a book with 300 lumens and 3000 Kelvin. The bracket of the HOTEL wall light and the reading arm are finished in matt nickel. Combined with a white fabric shade, the light looks discreet and timeless. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

The LEVISTO plug-in spotlight offers full flexibility and functionality and impresses with a simple design that can be integrated comfortably into your rooms. The spotlight in matt nickel combined with the white alabaster-coloured glass provides uniform illumination. The luminaire arm is flexible and can therefore be individually aligned and the integrated switch dimmer is particularly noteworthy. Three different brightness levels can be selected using the on/off switch. By graduating the light intensity from 100% to 50% and 25%, the luminaire can cater for different lighting conditions. Ideally, the light should be placed next to the bed in the bedroom, as the flexible arm makes it ideal for use as a reading light, while the integrated light source emits a pleasant warm white light of 3000 Kelvin. Depending on its position, the plug-in spotlight reaches a maximum height of 40 cm and a maximum projection of 22 cm.

Simple, elegant and design-orientated. The high-quality LYON wall light impresses with its modern style and straightforward design. The wall light conjures up a pleasant lighting mood and is incredibly decorative at the same time. Ideally, the LYON should be placed in the bedroom next to the bed, as the combination of a swivelling arm, a 69 cm projection and flexible mounting makes it ideal as a light next to the bed. The LYON is equipped with the FLEXconnect feature, which means that it can be attached to the wall in any position and connected to the socket via a cable or is suitable for a fixed connection without a cable thanks to the integrated cable outlet. The combination of matt brass and a white fabric shade is perfectly rounded off and creates a sophisticated overall look. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Timeless and minimalist. The simple
design of the MARIO wall light goes
just as well with an industrial style as
it does with an elegant look. The
round luminaire has a diameter of 16
cm and has two light sources that can
be switched separately using
integrated switches. Both the main
light source with a light intensity of
600 lumens and the swivelling reading
light with a light intensity of 200
lumens emit a pleasantly soft light
colour. The MARIO reading light can
be individually aligned, making it ideal
as a wall light next to the bed. The
light is also equipped with the
FLEXconnect feature. This means that
the light can be attached to the wall
as usual in any position and supplied
with power via a mains cable or
connected directly to the fixed
connection. In this case, the cable can
be easily removed from the light. The
restrained colour scheme in matt
white leaves plenty of scope for
combining with existing interiors and
colours. In addition, the luminaires
feature modern LED technology,
which stands for a high quality of
light. LED light sources are
characterized by a long service life
and low heat generation.

Lights made from natural materials
bring lightness and cosiness into your
home. This makes the NILAM wall light
perfect for your bedroom! In addition
to the pleasant main light with a
cylindrical fabric shade, the modern
wall light has a convenient and
flexible reading arm that can be used
as a second light source to customise
the light to your needs. Both light
sources can be switched separately
using two switches on the body.
Thanks to the FLEXconnect feature,
the light is also suitable for both fixed
connection and use with a plug lead.
The colour and material of the lamp in
white fabric and untreated natural
wood create an oasis of well-being in
your sleeping area. For modern and
reliable lighting, the use of an LED
bulb is recommended. It offers a high
quality of light, is versatile and
convinces with uniform illumination.
Its long service life and low heat
generation make it the ideal choice
for a wide range of applications.

Guaranteed to catch the eye! The RAVEN wall light not only serves as a simple wall light, its elegant slate design creates a modern appearance with a decorative character. The minimalist look allows the indirect lighting to take centre stage, creating a pleasant and atmospheric ambience. The luminaire also has a SWITCH dimmer, allowing the brightness to be adjusted from 100% to 50% and 25% using a conventional light switch. The slate design in black creates a modern look and makes it easy to integrate into existing furnishing concepts. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

With its modern and unusual design, the SOLITAIRE luminaire creates a striking eye-catcher in any living area. In addition to an RGBW colour changer, the remote control can be used not only to select a wide range of colours, but also to continuously adjust the brightness. The body of the basic model consists of three modules that can be arranged in different ways. The size of the luminaire is determined by the arrangement of the modules, with each module measuring approx. 34x39 cm and 6 cm high. In addition, the basic model can be extended by two further modules, so that the SOLITAIRE can be made up of a maximum of five modules. Give free rein to your creativity, whether it's setting the mood for the next party or providing relaxing light for resting. Thanks to the neutral white colour scheme, the various colour settings can be shown to their best advantage. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
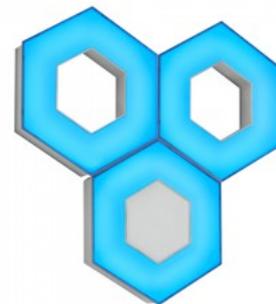

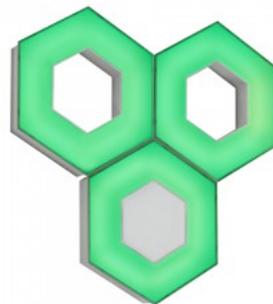

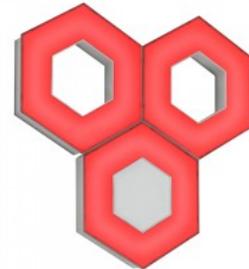

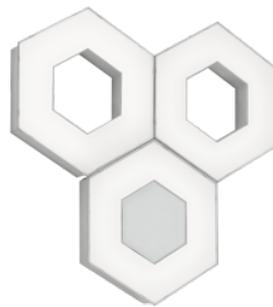

# Wall lamp Trio Lighting Taryn black GU10

## Product code 22095

Brand [Trio Lighting](#)
Socket GU10

Casing material metal

The TARYN wall light is the perfect companion for quiet hours of reading - discreet in design but powerful in function. Whether by the bed or next to your favourite armchair: thanks to the flexible arm, the light source can be positioned exactly where you need it. The FLEXconnect function is particularly practical: TARYN is suitable for both fixed connection and operation with a plug cable (supply cable not included) and can therefore be flexibly adapted to your living conditions. Made from black matt metal, the light impresses with its clear look and timeless restraint. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

# Wall light Trio Lighting Zazou 2 X GU10 white IP20
