Diameter 80.0mm  
Weight 790 g  
In package 1pc  
In box 12pcs  
Casing material aluminium  
Work environment indoor use  
Operation temperature -20 - +40°C  
Certificates CE  
Warranty 3 years

A wireless, rechargeable, and magnetic LED lamp with four installation options. The lamp can be placed on a base and used as a desk lamp or mounted on a wall using screws. The package includes a USB-C cable (approximately 1 meter) for charging the lamp. The lamp can be adjusted 360 degrees in any direction and offers three light colors: warm, neutral, and cool. The light color can be changed using the lamp's button, and the brightness can be adjusted by pressing the button longer. The lamp can also be turned on while charging. It features a built-in, non-replaceable 1200mAh battery, which is rechargeable using the USB-C cable by connecting it to a computer, power bank, or another power source.

AI Collaboration is a project that opens new horizons for creative ideas. AI-based image generator programs create hundreds of images, most of which are not suitable to be used as prototypes for real products. However, an experienced designer can transform these unsuccessful attempts into unique creative ideas. One such collaboration resulted in the concept of a table luminaire. Initially, the AI created impractical images of luminaires, so a different approach was chosen. Based on the designer's prompt, the AI produced renderings of unusual glass vases, with their silhouettes becoming the foundation for the luminaire's design. This led to the creation of one of the world's first luminaires designed with the help of AI! The portable luminaire can stay on for up to 8 hours (charging cable included). Its stable, wide glass base can hold fresh flowers or even entire mini ecosystems. The luminaire can be disassembled for cleaning the vase. A convenient touch switch is located at the top of the diffuser. Four color options make it suitable for any interior. It's perfect for both homes and restaurants. A version of the luminaire features a thin metal stem.

Weight 2 kg  
Package weight 2.6 kg  
Casing colour black  
Casing material metal  
Warranty 2 years

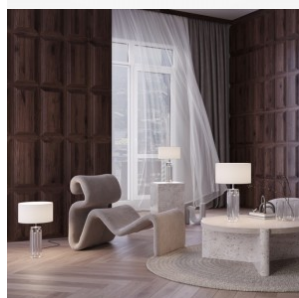

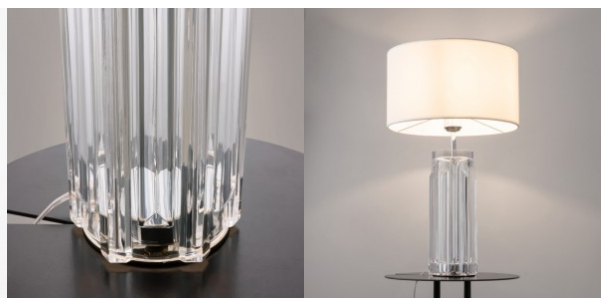

The Mollis collection is more than a design - it's a philosophy of minimalism reflected in the straight lines and strict forms of its luminaires. The soft contours of the metal frame combined with the warm glow of acrylic lighting gently soften the sharpness of the geometry, emphasizing simplicity and a sense of freedom. The collection includes table lamps, wall sconces, floor lamps, and pendants. Its unified, coherent design makes Mollis an ideal complement to high-tech, minimalist, and contemporary interiors.

The Splash series embodies dynamic design and modern lighting aesthetics. The double-glass lampshades align with trends in minimalism and production efficiency, adding a bold touch of style to your interior. The series includes single pendant and table luminaires that strike a perfect balance between form and function. The outer lampshades come in two sophisticated finishes: transparent and galvanized grey with a striking gradient effect, creating deep, rich lighting. An LED light source with a color temperature of 3000K ensures warm, inviting illumination. Elegant satin gold fittings enhance the luxurious appeal of the series. The pendant luminaires feature an adjustable wire length of up to 3 meters, making them ideal for rooms with high ceilings. Splash is modern lighting artistry at its finest.

A wireless, rechargeable, and magnetic LED lamp with four installation options. The lamp can be placed on a base and used as a desk lamp or mounted on a wall using screws. The package includes a USB-C cable (approximately 1 meter) for charging the lamp. The lamp can be adjusted 360 degrees in any direction and offers three light colors: warm, neutral, and cool. The light color can be changed using the lamp's button, and the brightness can be adjusted by pressing the button longer. The lamp can also be turned on while charging. It features a built-in, non-replaceable 1200mAh battery, which is rechargeable using the USB-C cable by connecting it to a computer, power bank, or another power source.

Design and functionality come together in the modern ARUBA outdoor light. Place the table lamp flexibly in a position of your choice - without any cables. On the balcony, terrace or at a picnic - the light can be charged within 5 hours via the integrated rechargeable battery using the USB connection and then emit a pleasantly warm light for approx. 8 hours. This makes the seating area flexible not only in terms of light. The RGBW colour changer can also be controlled in stages using the switch. The table lamp has a height of 20.5 cm and a diameter of 13 cm. The light also has an IP44 protection rating and is ideal for outdoor use. Thanks to the white plastic design, the light is optimally reflected and the luminaire blends seamlessly into any outdoor area. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.

The luminaires of the BURTON series with their textile shades are the epitome of cosiness. The homely light, which conjures up a cosy ambience thanks to the two different coloured shades, sets special lighting accents. The table lamp, which finds its place on the night table or on a chest of drawers, can be operated flexibly via a cord switch. The modern combination of an inner white fabric shade and an outer transparent black plastic shade looks individual as well as refreshing and can be integrated into modern living styles in many ways. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Feel the light of gaming! The GAME table lamp set of 2 offers a variety of practical functions that take the gaming experience to a whole new level and allow players to immerse themselves more deeply in the fictional world. The Dynamic Light function creates a fascinating atmosphere with pre-programmed, dynamic lighting scenarios that add fascinating lighting effects to the multi-coloured or monochrome mood lighting. The luminaire is also equipped with the Sound Control function. Using a built-in microphone, the RGB LEDs react in real time to ambient noises and transform music, films and gaming into captivating, rhythmically adapted light effects. The remote control included in the scope of delivery allows you to adjust the brightness and RGB colour changer to your own preferences. Whether placed next to the TV or gaming PC, the GAME enhances your gaming or film experience in an incomparable way. When switched off, the table lamp presents itself with simple elegance and can be combined in a variety of ways with its black design. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Thanks to its stylish design, the modern KRAIT desk lamp is an absolute eye-catcher on any desk. With the integrated RGB colour changer, you can design the base of the lamp in any colour of your choice. The desk lamp has a height of 34 cm and a width of 12.5 cm. Thanks to the anthracite colour scheme, the light can be combined with many furnishing styles. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

Diameter 150.0mm

Casing colour nickel

Colour comes into play with the LEIA floor lamp. A colour from the RGBW spectrum can be selected using the included remote control so that your surroundings are transformed into the desired colour. In addition, the brightness can be continuously dimmed so that it can be individually adjusted depending on the lighting conditions. The tasteful and otherwise rather discreet design is a wonderful match for modern living spaces where clear lines predominate. The floor lamp has a height of 104 cm and should be placed prominently in the interior due to the colour effects. Next to the sofa or in the entrance area, it looks great both switched on and off. The chrome-coloured base and crystal cover create a modern contrast to the light colours and stylishly round off the overall look. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

## Table lamp Trio Lighting Lyon brass E27

**Product code 20978**

## Table lamp Trio Lighting Miki E27 IP20

**Product code 19618**

Brand [Trio Lighting](#)

Socket E27

Protection class IP20

Height 205.0mm

Diameter 200.0mm

The MIKI table lamp brings a natural lightness into your home with its trendy boho look. The casual mix of metal and paper in a ratan look radiates vibrancy and is a cool eye-catcher on a chest of drawers in the living area or in the hallway. The play of light and shadow, which can be controlled by a cord switch, is created by the special design and ensures relaxation and cosiness. The combination of brown paper and black metal makes it easy to integrate the light into various furnishing styles such as boho or Scandi and also adapts to different types of wood. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Water columns are absolute classics and a highlight among decorative lights! Create colourful lighting accents in your living room, bedroom or children's room. The MOTION water column is illuminated using built-in LED technology and, when switched on, creates a bubble that moves the decorative fish and decorative spheres inside. In addition, the RGB colour change creates varied lighting scenarios. When switched off, the water column takes on a simple appearance and can be combined in a variety of ways thanks to the titanium-coloured light base and the clear column. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

The POLO table lamp offers high flexibility combined with a modern and straightforward design. The luminaire neck provides optimum adjustment options so that the light can be positioned individually. There are two touch points on the base of the light that can be used to conveniently switch the light on and off, dim it 4 times and adjust the light colour in stages (3000/4000/5000 Kelvin). With a height of 41cm and a projection of 40cm, the table lamp is therefore ideal as modern and functional desk lighting. In timeless matt white, it is deliberately kept simple and blends easily into existing colour schemes. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
