The BIDAR ceiling light combines stylish design with functional versatility and brings a special feel-good light into your rooms. The light shimmering gently through filigree patterns creates a fascinating interplay of light and shadow that radiates a warm cosiness. At the same time, the integrated fan ensures optimum air circulation all year round - pleasantly cool in summer and efficiently warming in winter. The practical remote control can be used to control both the light and the fan separately, with the fan offering three speed levels for customised adjustment. The perfect symbiosis of light and air - for an all-round harmonious room climate all year round. The elegant design in matt black and gold-coloured metal blends harmoniously into any modern home. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

The BORAS ceiling light is anything but ordinary. The eye-catching, beautifully shaped illuminated surface makes it a real eye-catcher on the ceiling and gives the room a special dynamic. At the same time, the unusual look conceals a sophisticated interplay of light and air that perfectly combines comfort and design. As soon as the fan is activated, the blades gently extend and ensure pleasant air circulation. The light and fan can be controlled separately - conveniently by remote control. The brightness and light colour can be individually adjusted so that the lighting mood can be adapted to your needs at any time. With three speed levels as well as summer and winter operation, BORAS creates a balanced room climate at any time of year. The night light and timer function round off the overall package and make the light the ideal choice for living rooms and bedrooms where design is just as important as function. The look is rounded off by matt white metal in combination with white plastic, giving the fan a modern, harmonious appearance. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The OSLO fan brings a breath of fresh air and atmospheric light into perfect balance. It combines pleasant air circulation with modern lighting, ensuring a comfortable room climate all year round. Thanks to the practical hanging bracket, the ceiling fan is quick and easy to install - without any major effort. With its IP44 protection rating, OSLO is not only ideal for living rooms, but also ideal for damp rooms such as bathrooms or for outdoor use, for example on a covered patio. On hot summer days, it provides a pleasantly cool breeze, while in the evening hours it provides just the right amount of light. The light and fan can be switched separately and conveniently controlled by remote control. Whether brightness, light colour or air flow - everything is individually adjustable. The fan has six speed settings, a practical timer function and a discreet night light that creates a relaxing atmosphere. The design is rounded off by the stylish material combination of white plastic and wood-coloured metal, which gives the ceiling fan a bright, natural look and emphasises its homely effect. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Clear shapes, fresh comfort! The KURULA ceiling fan impresses with its round, minimalist design, which is discreetly unobtrusive and functional at the same time. The generous, round light surface ensures uniform illumination and can be individually adjusted in terms of both brightness and light colour - from pleasantly warm to clear and activating. Integrated in the centre, the fan operates almost inconspicuously and reliably ensures a pleasant room climate. All functions can be conveniently controlled by remote control. The light and fan can be switched on and off independently of each other - as required. With six speed levels as well as summer and winter operation, KURULA offers the right air circulation for every season: cooling in summer and helping to distribute warm air in winter. The timer function rounds off the convenience and makes KURULA ideal for living rooms, bedrooms or the home office. Made of white plastic, the fan emphasises its modern, clear character and blends harmoniously into any living concept. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Ceiling light–fan Trio Lighting Lillesand brown E27 IP20

Product code 22141

Brand Trio Lighting
Socket E27
Protection class IP20
Height 215.0mm
Diameter 500.0mm
Weight 2.8 kg
Package weight 3.6 kg
Casing colour brown
Work environment outdoor use

A ceiling light with a fan function, such as the LILLESAND, is useful all year round. While it provides pleasant cooling in summer mode, in winter mode - in reverse - it ensures good distribution of the heating air trapped under the ceiling. This option is perfect for reducing heating costs. The enclosed remote control can also be used to adjust the cool breeze remotely in three speed levels. The integrated timer function allows the Vetilator to switch off automatically after a selected period of time, making it a practical everyday companion in the living or sleeping area. The material mix of brown paper and black matt metal is currently on trend and will make the hearts of boho lovers beat faster. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Product code 22118

Brand Trio Lighting
Output 30W
Maximum output 30W/1m
Luminous flux 3500lumens
Luminaire’s efficiency 117W
Correlated colour temperature warm - cold white 2700K - 6500K
Protection class IP20
Lifespan 30000h
Height 165.0mm
Diameter 490.0mm
Weight 1.7 kg
Package weight 2.4 kg
Casing colour white
Casing material plastic
No. of switches 15000pcs
Work environment indoor use
Warranty 5 years

Our everyday life offers many different situations, each requiring different types of light and functions. The STRALSUND ceiling light with integrated fan is a perfect example of how functionality and design can harmonise and meet different everyday requirements. The included remote control allows you to control the fan, adjust the light settings and set the timer. The integrated fan has three speed settings and ensures ideal distribution of heated air in the cold season as well as cooling in summer. The light colour of the ceiling light can be adjusted in three stages or continuously from 3000-6500 Kelvin. The light also has an integrated dimmer and a night light function, which can also be controlled via the remote control if required. The timer can be programmed for an operating time of one, two or four hours. The white ceiling light with Starlight cover and titanium-coloured elements can be combined with many furnishing concepts. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Ceiling light–fan Trio Lighting Trondheim black IP20

Product code 22112

Brand Trio Lighting
Protection class IP20
Height 175.0mm
Diameter 480.0mm
Weight 3.8 kg
Package weight 4.6 kg
Casing colour black
Casing material metal

The TRONDHEIM ceiling light combines light and air circulation in a modern and minimalist design. With three speed levels and an integrated timer function, the fan ensures a balanced distribution of room air and optimum illumination of the room in both summer and winter. A remote control included in the scope of delivery allows you to operate all functions and the light or fan separately. The modern design in matt black and wood colour allows the ceiling light to blend in perfectly with existing interiors. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Natural warmth meets fresh lightness! The VOLDA ceiling light combines light, air and a warm wooden look to create a harmonious overall picture that immediately creates a cosy atmosphere. The natural design creates an inviting atmosphere for arriving, relaxing and lingering - perfect for living rooms and bedrooms with a feel-good character. The light colour and brightness can be conveniently adjusted independently of the fan by remote control and flexibly adapted to the mood or time of day. As soon as the fan blades fold out, the fan provides pleasant air circulation at six speed levels. Thanks to summer and winter operation, VOLDA supports the room climate all year round - cooling in summer and balancing in winter. The height of the light can also be adjusted, allowing it to be optimally adapted to the height of the room in question. The memory function remembers the last selected settings and automatically restores them when the light is switched on again. The design is rounded off by a bright, modern material combination of white plastic and white metal. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
