A wireless, rechargeable, and magnetic LED lamp with four installation options. The lamp can be placed on a base and used as a desk lamp or mounted on a wall using screws. The package includes a USB-C cable (approximately 1 meter) for charging the lamp. The lamp can be adjusted 360 degrees in any direction and offers three light colors: warm, neutral, and cool. The light color can be changed using the lamp's button, and the brightness can be adjusted by pressing the button longer. The lamp can also be turned on while charging. It features a built-in, non-replaceable 1200mAh battery, which is rechargeable using the USB-C cable by connecting it to a computer, power bank, or another power source.

An ergonomic workstation light with adjustable colour temperature and a minimalist design that fits any modern office. The light can be adjusted via a touch screen located on the lamp's body, which also features a digital clock. The screen is positioned at a height that allows use without standing up from the table. The SmartGlow light illuminates both the desk and the room - the beam is directed both downwards and upwards. Both light directions can be adjusted individually. SmartGlow's UGR value of 6 is exceptionally good. This means that the light beam is not uncomfortable for the eyes and has minimal glare effect. Our Tallinn showroom also has a SmartGlow sample in use, which you can come see for yourself to confirm the top-level quality of this workstation light!
