An industrial luminaire with adjustable power, suitable for both warehouse and car park. In industrial spaces, there is a higher risk of light fixtures getting damaged. To prevent this, this light fixture has an IK10 protection rating. This means that it is difficult to cause mechanical damage to the fixture. A light fixture with an IK10 rating can withstand hammer impacts of up to 20 joules. The user can choose between power settings of which also determines the number of lumens. With proper use, the luminaire is energy-efficient, environmentally friendly, and has a very long lifespan (50,000 hours). Applications: sports halls, workshops, event arenas, industries, etc. All details of the luminaire are shatterproof! The luminaire lens is made of polycarbonate. Polycarbonate is a thermoplastic polymer used in various applications due to its durability, lightweight, and transparency. In case of malfunction within 5 years, the luminaire will be replaced with a new one. Through the initial calculation conducted by LED house, it becomes clear how many luminaires are needed to achieve the desired light density in the building. These luminaires use Mean Well power supplies, providing peace of mind with their reliability for a long time. The highest quality lighting solutions can be found in the LED house product range!

Applications: sports halls, workshops, event arenas, industries, etc. All details of the luminaire are shatterproof! The luminaire lens is made of polycarbonate. Polycarbonate is a thermoplastic polymer used in various applications due to its durability, lightweight, and transparency. In case of malfunction within 5 years, the luminaire will be replaced with a new one. Through the initial calculation conducted by LED house, it becomes clear how many luminaires are needed to achieve the desired light density in the building. These luminaires use Mean Well power supplies, providing peace of mind with their reliability for a long time. The highest quality lighting solutions can be found in the LED house product range!

High-quality UFO-type LED industrial luminaire. Ideal for warehouses, industrial buildings, and manufacturing. With lighting calculations, you can determine how many luminaires are needed for the desired light intensity in an area. The IP65 protection class means that the luminaire is protected against fine dust and water jets. The luminaire has a light temperature of 4000K, providing daylight-like illumination - the most suitable light for work environments. With proper use, the luminaire is energy-efficient, environmentally friendly, and has a very long lifespan (50,000 hours). You can find the best assortment of industrial lighting in the [LED house product range](#)!

PROLUMEN Galaxy series offers versatile and powerful lighting solutions for various needs. These LED luminaires are equipped with high-quality components and provide excellent illumination both indoors and outdoors. The Galaxy series luminaires have several features and characteristics, including: 1. Various power options ranging from 100W to 200W, ensuring a wide selection for different applications. 2. High luminous flux, providing sufficient illumination for larger areas. 3. Different light distribution angles, including 30x90° and 80x110°, ensuring optimal lighting for different environments. 4. Different IP ratings, ensuring durability and suitability for various environmental conditions. 5. Daylight colour temperature (4000K) providing clear and ergonomic lighting for everyday activities. PROLUMEN Galaxy series luminaires are available with various additional features, including motion sensors or DALI systems, making them even more flexible and energy-efficient. Harrow - an innovative [industrial and warehouse luminaire](#) that meets a wide range of expectations, boasting an unusually long lifespan and high quality. The Dreamboat luminaire meets various demands: 1. It can be installed either surface-mounted or suspended. 2. DALI dimming technology allows adjusting light intensity according to needs. 3. Power can be changed with a button press, making it possible to install the luminaire at different heights. The luminaire has end caps at both ends, making wiring and maintenance exceptionally easy. Additionally, maintenance costs are lower than usual because individual components of the luminaire can be replaced separately, eliminating the need to replace the entire luminaire in case of a malfunction. LED industrial luminaire, suitable for use in workshops, warehouses, corridors, under roofs, garages, etc. In workspaces, LED lighting is an excellent choice: it provides bright and ergonomic lighting, which helps maintain employees' focus and productivity. Reliability is ensured by the OSRAM power supply unit and a 5-year warranty. If the luminaire fails within 5 years, we will replace it with a new one! Very easy and quick installation: The luminaire fits between two clips, which are fastened with two screws. On average, installation takes less than 3 minutes! IP65 protection class ensures strong waterproofness of the luminaire and allows it to be used in outdoor conditions, where it may even be under direct water pressure. High-quality UFO-type LED industrial luminaire. Ideal for warehouses, industrial buildings, and manufacturing. With lighting calculations, you can determine how many luminaires are needed for the desired light intensity in an area. The IP65 protection class means that the luminaire is protected against fine dust and water jets. The luminaire has a light temperature of 4000K, providing daylight-like illumination - the most suitable light for work environments. With proper use, the luminaire is energy-efficient, environmentally friendly, and has a very long lifespan (50,000 hours). You can find the best assortment of industrial lighting in the LED house product range!
