The series showcases large-scale sculptural compositions formed by numerous blown glass spheres. The tinted or clear shades, mounted on polished metal branches, gently diffuse and soften the light, creating a sophisticated visual effect. The luminaires are available in gold, chrome, and brass colors. Suspension height is easily adjustable via the cable length. The series includes ceiling-mounted fixtures, pendants, and wall lamps, offering flexibility for a wide range of interior layouts.

The DARVIN pendant light is a real eye-catcher for any living or dining room. Its unique design creates an artfully curved strand and sets new standards. The high-quality LED strip not only enhances the aesthetic effect, but also provides efficient and pleasant lighting. The light colour and brightness can be conveniently and infinitely adjusted using a conventional light switch to create the optimum room lighting according to requirements or the time of day. This successful combination of creative design and modern lighting technology makes DARVIN a versatile element that both sets visual accents and fulfils the highest functional requirements. With its elegant matt black colour, the luminaire blends timelessly and modernly into any environment and also contributes to energy efficiency. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The three light circles of the GROOVY ceiling light conjure up that certain something in your living area. The fine glass elements within the circles provide an elegant touch and become a true decorative element on your ceiling. An integrated SWITCH dimmer allows the brightness of the built-in LEDs to be regulated in three stages via a light switch. The perfectly shaped look in matt black blends into many interior styles thanks to its simplicity. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The INDIRA luminaire combines direct and indirect lighting – three light elements direct the light downwards and two upwards. The adjustable elements allow you to change the light direction, and the SWITCH dimming function enables three brightness levels with a standard switch. The luminaire can be mounted on the ceiling or wall, making it ideal for hallways and kitchen areas. The matte black metal and high-quality acrylic ensure a modern look, while LED technology provides a long lifespan and low heat emission.

A timeless design with clear lines and elegant shapes defines the JORA ceiling light. The integrated features allow the brightness and light colour to be conveniently adjusted from warm white to cool white by remote control. Alternatively, the brightness can be set in 3 levels (25%, 50% and 100%) using a conventional light switch. The additional sleep timer function switches the light off automatically after a preset time, making the JORA a perfect ceiling light for the bedroom. The integrated night light and memory function round off the light perfectly. Create a lighting ambience with the JORA that can be modern, functional and cosy! Thanks to the modern design and the colour combination of matt white and matt black, the ceiling light brings a unique play of light into your feel-good zone. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The unusual MARRAKESCH pendant light lends every room an individual flair and fits perfectly into modern surroundings. The shade design creates a fascinating interplay of light and shadow, creating a cosy atmosphere. The pendant light has a suspension of 150 cm and a diameter of 25 cm. The composition of the individual chrome beads in combination with the white organza shade creates a decorative light shade that is sure to impress. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.

The filigree, spiral-like design of the lighting elements adds to the extravagant charm of the PORTOFINO LED ceiling light. This excitingly designed LED ceiling light has a long, narrow shape. Another highlight is the luminaire's features. It has an integrated LED SWITCH dimmer that allows you to switch the light to 3 brightness levels using a conventional light switch. This PORTOFINO ceiling light is made of chrome-coloured metal. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

With its four rings of different diameters hanging from each other, the RONDO ceiling light is a real eye-catcher. The ceiling light has an integrated dimmer that is controlled via the light switch. This allows flexible control of the brightness of the LEDs installed on the inside of each circle. The 97 cm wide ceiling light is a real decorative element and stylishly enhances any living space. Thanks to the matt black colour scheme, the light can be combined with many furnishing styles. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

The stylish SHELDON ceiling light impresses with its organic shapes and colourful glass with a mirror effect. The three shimmering glass shades create a magical ambience with an exciting play of light and become a decorative element with a wow effect. Enhance your bedroom or living room elegantly and skilfully with the SHELDON! The combination of black matt metal and reddish, bluish and greenish glass shades takes the style factor of the luminaire to a whole new level. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

Get your light connected! The THIAGO ceiling light provides an innovative, flexible and smart lighting design. The WiZ luminaire offers an incredible colour spectrum of 16 million colours and 64,000 white tones. Wake up with gentle sunlight, starting your day full of energy, relax with soothing light or turn night into day - simply via the app. Compared to other smart home providers, WiZ luminaires do not require an additional gateway, so that all luminaires can be operated completely flexibly from a mobile device. Furthermore, the lights can be combined with Amazon Alexa or Google Home, so that operation by voice control is possible. Various lighting programs and settings can also be selected with the remote control supplied, or using the light switch. Another advantage is the flexibility of use: This means that the WiZ lights can be controlled by several users, assigned to different rooms or locations and controlled from anywhere. The composition of three filigree rectangles creates a modern luminaire for the living room or entrance area. The ceiling light is designed in anthracite and can be easily integrated into existing colour schemes. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
