The Balbo collection by Maytoni embodies lightness and sophistication in contemporary design. Oversized glass shades create a stunning visual impact, filling the space with both light and air. The refined composition is built on the contrast between the nickel-colored metal frame and the voluminous glass shades. With each shade measuring up to 100 mm in diameter, the collection offers an impressive sense of scale that visually expands the space.

The series showcases large-scale sculptural compositions formed by numerous blown glass spheres. The tinted or clear shades, mounted on polished metal branches, gently diffuse and soften the light, creating a sophisticated visual effect. The luminaires are available in gold, chrome, and brass colors. Suspension height is easily adjustable via the cable length. The series includes ceiling-mounted fixtures, pendants, and wall lamps, offering flexibility for a wide range of interior layouts.

The blown white glass shades resemble luminous pearls encased in matte bronze or nickel-colored metal frames. The series offers a variety of models in different sizes and applications, suitable for both general and task lighting. Functional design allows for adjustable shade positioning on both the floor lamp and table lamp. The height of the pendants can be customized via the adjustable cables. Chandeliers feature a central rod composed of three sections, allowing height adjustments to suit any space. Ceiling-mounted models further expand the collection's versatility, making it suitable for rooms with varying dimensions and ceiling heights.

The CORSO wall and ceiling light brings luminous art, consisting of purist lines, into your home. The individually swivelling elements turn the luminaire into a versatile light source with a wow effect that stylishly enhances your living room or hallway. Thanks to a remote control included in the scope of delivery, the brightness and light colour can be individually adjusted. Alternatively, the brightness can be set in three stages (25%, 50%, 100%) using a conventional light switch, allowing you to create different lighting moods. Focussed on basic geometric shapes and individuality, the CORSO ensures that your interior is a luminous eye-catcher. The simple colour scheme in matt black draws the focus to the design language and functions of the light and easily combines the independent decorative element with existing furnishing styles. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Work environment indoor use

Pure elegance! The characteristic CRYSTEL ceiling light becomes an eye-catcher in your living area thanks to its tasteful design language and gives your rooms an individual charm.

Unilluminated, the glass shade comes to the fore, but as soon as the light of the CRYSTEL is switched on, it shines in new splendour. When illuminated, the otherwise mirrored glass becomes transparent and the integrated glass elements become visible, creating an atmospheric ambience through light reflections. The elegant appearance of the lamp with chrome vapourised glass enhances your home and becomes a true decorative element. For modern and reliable lighting, the use of an LED bulb is recommended. It offers a high quality of light, is versatile and convinces with uniform illumination. Its long service life and low heat generation make it the ideal choice for a wide range of applications.

The DARVIN pendant light is a real eye-catcher for any living or dining room. Its unique design creates an artfully curved strand and sets new standards. The high-quality LED strip not only enhances the aesthetic effect, but also provides efficient and pleasant lighting. The light colour and brightness can be conveniently and infinitely adjusted using a conventional light switch to create the optimum room lighting according to requirements or the time of day. This successful combination of creative design and modern lighting technology makes DARVIN a versatile element that both sets visual accents and fulfils the highest functional requirements. With its elegant matt black colour, the luminaire blends timelessly and modernly into any environment and also contributes to energy efficiency. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

urved shapes form the basis of the NURIA luminaire. The harmonious design and extra-wide profile make the ceiling light a special lighting object with practical additional functions. Three light colours (warm, neutral, daylight white) can be set on the canopy using DIP-SWITCH. The brightness can also be adjusted in 3 stages using the conventional light switch. Thanks to the matt nickel colour design, the luminaire can be combined with many furnishing concepts. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

With the SOLEA ceiling light, you can bring a design object into your home that blends perfectly into various living areas thanks to its clear and modern look. Whether in the living room, hallway or bedroom - SOLEA impresses with its simple design language and high-quality workmanship. A special highlight is the separate switchability of the individual light sources. This allows you to decide which areas should be softly lit or specifically illuminated. Perfect for flexibly staging rooms according to mood or use. SOLEA impresses with its combination of metal in coffee and warm grey and white acrylic plastic. The interplay of materials creates a modern, timeless design and provides pleasant, uniform light without glare. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Stylish and extraordinary - a statement for any room. The SUZUKA luminaire impresses with its innovative design and full functionality. It not only fulfils its purpose of illuminating the room, the unusual design also makes the SUZUKA a modern work of art. Properly staged, the luminaire becomes an eye-catching centrepiece that stylishly enhances any living area. The Suzuka combines a variety of special features to create the right ambience in your living space. The light can be dimmed and its light colour can be individually adjusted from warm white (3000 Kelvin) to cool white (5500 Kelvin) using the included remote control. The individual light sources can be switched differently. In this way, different light variants can be created to provide pleasant room lighting: warm white inside and cool white outside, cool white inside and warm white outside. Let yourself be inspired and make your living space shine. The SUZUKA is suitable for both wall and ceiling mounting.

Get your light connected! The THIAGO ceiling light provides an innovative, flexible and smart lighting design. The WiZ luminaire offers an incredible colour spectrum of 16 million colours and 64,000 white tones. Wake up with gentle sunlight, starting your day full of energy, relax with soothing light or turn night into day - simply via the app. Compared to other smart home providers, WiZ luminaires do not require an additional gateway, so that all luminaires can be operated completely flexibly from a mobile device. Furthermore, the lights can be combined with Amazon Alexa or Google Home, so that operation by voice control is possible. Various lighting programs and settings can also be selected with the remote control supplied, or using the light switch. Another advantage is the flexibility of use: This means that the WiZ lights can be controlled by several users, assigned to different rooms or locations and controlled from anywhere. The composition of three filigree rectangles creates a modern luminaire for the living room or entrance area. The ceiling light is designed in anthracite and can be easily integrated into existing colour schemes. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.

Characteristic luminaires such as those in the VAPORE range lend a room elegance and individual charm. When unlit, the chrome-plated glass shade takes centre stage, but as soon as the VAPORE light is switched on, it shines in new splendour. When illuminated, the otherwise mirrored glass becomes transparent and the integrated glass drops become visible. The contrast of material, colour and playful details makes the luminaire unique and gives the room a warm and mysterious atmosphere. The ceiling light has a diameter of 40 cm and a height of 22 cm. T
