

Датчик движения HYTRONIK RF HC018V 0-10V (LH3913)

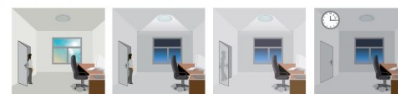

код изделия : LH3913
 бренд: [HYTRONIK](#)
 питание: 230V
 материал корпуса: пластик
 рабочая среда: для внутреннего использования
 сертификаты: CE
[Главная страница производителя](#)
 гарантия: 5 лет

цена: €35,83+HCO
 цена: €43,00 с HCO
 [Discount price]: €29,17 + HCO

3-level Control (Corridor Function)

Hytronik builds this function inside the motion sensor to activate 3-level control, for some areas which require a light change notice before switch-off. The sensor offers 3 levels of light: 100%-dimmed light=off, and 2 periods of selectable waiting time: motion hold-time and standby period. Selectable daylight threshold and hysteresis of detection area.

With sufficient natural light, the light does not switch on when presence is detected. With insufficient natural light, the sensor switches on the light automatically when presence is detected. After hold time, the light dims to standby level or switch off if the standby period is pre-set to 0s. Light switches off automatically after the standby period elapses.
